Report for AY 2025-26

Name of Club: CULTURAL AND MUSICAL BOARD

Vision

Our vision is to promote and foster a culturally diverse environment which enhances the holistic development of our students through the medium of artistic exploration. We envision a club that provides Opportunities for students to enhance their talents and skills by engaging in cultural activities with the right attitude and positivity, thereby encouraging them to become culturally aware leaders in a global society.

Mission

Our mission is to create an active and vibrant community that encourages cultural exchange and appreciation among students. We aim to organize events, workshops, and activities that celebrate diverse traditions and foster teamwork, collaboration, community, and interpersonal development in students, promote dialogue, and enhance understanding across cultures. Through the medium of art, dance and music, we strive to create opportunities for students to showcase their talents, helping them build confidence, social and interpersonal skills.

Academic Year	2025-26
Name of coordinator	AIT Cultural Board
Program/Activity/Name	Cultural Aakriti
Select one of the Program Types (Workshop/FDP/Seminar/Conference/Other)	Other
Start Date	17th September, 2025
End Date	24st September, 2025
Mode of Session delivery (Ofline/Online)	Offline
Number of Student Participants	800
Number of Faculty Participants	Nil
Number of External Participants, If any	Nil
Expenditure Amount, If any	2.27 lakh
Objectives of activity (min 2)	1. The objective of Cultural Aakriti was to provide a platform for students to showcase their talents, enhance creative and communication skills, and promote teamwork through various cultural and intellectual competitions. 2. It aimed to foster holistic development and create a vibrant, inclusive campus environment.
Description of activity	Cultural Aakriti was a vibrant intra-college cultural festival organized at Army Institute of Technology from September 17th to 24st, celebrating creativity, talent, and artistic expression among students. The festival featured a wide range of competitions such as dance, drama, quiz, fine arts, photography, and reel making, providing students with an excellent platform to display both their artistic and intellectual skills. The event witnessed enthusiastic participation from more than 800 students across all departments, creating an energetic and engaging atmosphere

	throughout the fest. One of the major highlights of this edition was the Branch System, where students participated branch-wise to encourage organized involvement and foster a sense of identity, teamwork, and healthy competition among different branches. This format significantly enhanced the competitive spirit and added excitement to the overall experience. Well-planned and successfully executed, Cultural Aakriti promoted creativity, collaboration, and student engagement while reflecting AIT's commitment to holistic development and a vibrant campus culture.

	the audience cheered each performance with enthusiasm and warmth. Photograph 1 (Jpeg Format max size 2mb) which show strength of audience (can attach separate file) Session plan/ Brochure/ Document/ Overall Report of the activity (Can attach separate file) More than just a stage, the Open Mic Night became a space for connection—where students unwound, expressed themselves, and bonded over shared laughter and applause. With hot chocolate in hand and Christmas tunes in the air, the night was filled with genuine joy and reflection. The event reminded everyone of the importance of community and the beauty of finding joy in the little things. It was the perfect blend of celebration and self-expression to end the semester on a high, festive note

Objectives of activity (min 2)	1. Marking a Fresh Start: Celebrating the beginning of a new year and the opportunity for new beginnings. 2. Reflection and Renewal: Reflecting on the past year and renewing goals, aspirations, and commitments for the upcoming year.
Description of activity	The New Year celebration at the Army Institute of Technology, held on 31th December, was a vibrant and memorable evening that brought the entire college community together to welcome the year with energy, music, and unity. The celebration took place on the football ground, where a grand stage was set up to host the festivities. The event featured a captivating band performance that set the mood with lively music and engaging rhythms, creating an atmosphere of celebration and joy. This was followed by an energetic jam session, where students came together

Objectives of activity (min 2)	1. AIT was established in 1994 and mainly admits wards of Army personnel. 2. The institute celebrates its Foundation Day every year. In 2026, it marked its 32nd Foundation Day. 3. The event usually includes: 1. speeches by senior Indian Army officers, 2. awards and recognitions, 3. cultural performances, 4. alumni and academic achievements, 5. discussions on technology, innovation, and national service.

Dr. Preeti Warrier
Faculty Incharge

Description of activity	The 32nd Foundation Day (AIT Day) of Army Institute of Technology Pune was celebrated with great enthusiasm, marking over three decades of academic excellence and discipline. The event was graced by the presence of distinguished Chief Guest Lt Gen Dhiraj Seth, along with other senior Indian Army officials, whose inspiring address emphasized the growing importance of emerging technologies such as artificial intelligence, robotics, and cybersecurity in modern warfare and national development. The celebration included award ceremonies recognizing outstanding student and faculty achievements, as well as vibrant cultural performances showcasing student talent. The presence of esteemed guests added prestige to the occasion and motivated students to strive for innovation, leadership, and dedicated service to the nation.

Description of activity	The **Farewell Ceremony** at Army Institute of Technology was organized to bid a heartfelt farewell to the outgoing batch with warmth, gratitude, and best wishes for their future endeavors. The event served as a memorable occasion to celebrate the journey, achievements, and cherished memories of the final-year students. The program featured a variety of cultural performances, speeches, games, and interactive activities that created an atmosphere of joy, nostalgia, and celebration. Juniors took the initiative in planning and organizing the event, ensuring a respectful and memorable send-off for their seniors. Their efforts reflected appreciation and admiration for the contributions made by the graduating batch to the college community. The ceremony provided students with an opportunity to relive memorable moments, strengthen bonds, and express gratitude toward friends, mentors, and peers. Filled with laughter, emotions, and heartfelt messages, the farewell fostered a strong sense of connection and unity among students across different years. Overall, the event stood as a beautiful celebration of friendship, achievements, and new beginnings, leaving the graduating students with lasting memories as they stepped into the next phase of their journey.

Report for AY 2025-26
Name of Club: FILM Club

VISION

Our vision at Filmmaking Club is to become a thriving hub of creative expression, innovation, and collaboration in the world of filmmaking. We aim to empower and inspire student filmmakers to explore their unique storytelling voices and create impactful cinematic experiences that resonate with audiences.

MISSION

The mission of the AIT Filmmaking Club is to provide a Nurturing and Inclusive Space where students can cultivate their passion for filmmaking. Through workshops, projects, and networking opportunities, we seek to Educate, Collaborate, Showcase, Engage and Inspire.

Description of activity (50-150 words)	The Freshers' Intro Shoot is a welcoming event designed to introduce first-year students to the AIT Film Club. Through a professionally organized video shoot, students get their first taste of filmmaking, camera presence, and storytelling. It fosters a sense of community while showcasing each student's individuality and excitement. This engaging shoot acts as a creative icebreaker, making new students feel included and motivated to explore the art of cinema.

Select one of the Program Type (Workshop/FDP/Seminar/conference/intercollge event/intra college event/ other)	Intra college Event
Start Date	18-10-2025
End Date	23-10-2025
Mode of event (offline/online)	Online
Number of Student Participants	45+
Number of Faculty Participants	0
Number of External Participants, If any	0
Expenditure Amount, If any	Rs. 10000
Objectives of activity (min 2)	1. Recreate iconic scenes to enhance acting and direction skills. 2. Encourage reinterpretation of classic cinema moments.
Description of activity (50-150 words)	Film Flashback brings iconic Bollywood scenes back to life through student-led recreations. Participants become directors, actors, and cinematographers, reviving famous film moments with unique interpretations. It's a platform to test technical and creative skills, from costume and dialogue to lighting and expression. With a prize pool and the spotlight on, this event transforms nostalgic movie love into a cinematic challenge.

Report for AY 2025-26

COMPETITIVE CODING CLUB

VISION

To foster a trusted and dispensable source of information, music and entertainment, strengthening the civic and cultural life of campus radio at AIT and beyond.

MISSION

1. Promote students' interest in programming and competitive coding through technical activities, workshops, and coding events to enhance problem-solving skills and teamwork.
2. Facilitate collaborative learning and innovation by bringing together students to explore algorithms, software development, and emerging technologies.

Number of External Participants, If any	0
Objectives of activity (min 2)	1. Enhance coding and problem-solving skills. 2. Encourage competitive learning and continuous improvement.
Description of activity (50-150 words)	The club organized Crack 7.1, a competitive coding event that challenged participants to test their problem-solving abilities, coding efficiency, and logical thinking under time constraints. The event provided students with a platform to apply their programming knowledge in a competitive environment, celebrate achievements, and motivate themselves toward continuous learning and improvement.

Program Outcomes (Pos)

PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design

documentation, make effective presentations, and give and receive clear instructions.

PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

PO12: Life-long learning: Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context and technological change.

Report for AY 2025-26

Name of Club: DDQ Club

VISION

To emerge as a vibrant and impactful club within AIT, dedicated to fostering intellectual curiosity, confident expression, and collaborative spirit through debate, drama, and quizzing. We envision a space where critical thinking meets creativity, and every voice is encouraged to engage, express, and evolve.

MISSION

Our mission at the DDQ Club is to create a dynamic and inclusive platform for students to sharpen their reasoning, enhance public speaking, and explore performative arts. Through structured events like debates, quizzes, youth parliaments, and dramatics, we aim to nurture articulate communicators, thoughtful debaters, and passionate performers. Beyond competitions, we strive to build a close-knit community that values dialogue, camaraderie, and continuous growth—both on stage and beyond.

Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	80
Number of Faculty Participants	0
Number of External Participants, If any	0
Expenditure Amount, If any	Rs. 9,865
Objectives of activity	1. To boost confidence and communication skills in first-year students. 2. To encourage critical thinking and active participation
Description of activity	The FE Debate, held annually for first-year students, is a platform to explore the basics of argumentation and public speaking. It helps freshers build confidence, sharpen critical thinking, and express themselves clearly. More than a competition, it eases their transition into college while sparking an early interest in debate and dialogue.

End Date	24-09-2025
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	160
Number of Faculty Participants	0
Number of External Participants, If any	0
Expenditure Amount, If any	0
Objectives of activity	1. To encourage expression through speech and performance. 2. To promote creativity, spontaneity, and critical thinking.
Description of activity	At Aakriti, the DDQ Club presents a vibrant mix of events—from English and Hindi debates to JAM, Extempore, and Group Discussions. Students showcase their spontaneity, critical thinking, and stage presence through quizzes, monoacting, mute plays, and street performances. Each event celebrates voice, expression, and creativity, making Aakriti a true stage for talent.

Number of Student Participants	180
Number of Faculty Participants	0
Number of External Participants, If any	160
Expenditure Amount, If any	Rs. 2,30,00
Objectives of activity	1. To develop diplomacy, research, and negotiation skills through simulated UN debates. 2. To engage students in global issues, fostering awareness and leadership
Description of activity	The AIT Model United Nations (AIT MUN), the flagship event of the DDQ Club, stands as one of the most respected conferences in the Pune circuit. Known for its well-organized committees, engaging debates, and strong emphasis on research and diplomacy, AIT MUN offers delegates a truly immersive experience. Participants tackle global issues with depth, passion, and professionalism, reflecting the spirit of thoughtful negotiation and leadership.

DDQ CLUB'S Achievement

Total Expenditure (registration fee) - Rs. 62,500

No. of MUNs participated in - 4

Achievements:

PICT MUN

1. Harshika (SE Mech) - Best Journalist
2. Chetan Singh (BE Comp) - Verbal Mention

SLSMUN

1. Vedansh(SE Entc) - High Commendation
2. Mahak Rawat(FE ARE) - High Commendation
3. Khushi Yadav(FE Mech) - Verbal Mention
4. Prateek Singh (FE Comp) - Verbal Mention

Cummins MUN

1. Harshika Tyagi (SE Mech) - High Commendation
2. Alan B (SE IT) - Special Mention
3. Mahak Rawat(FE ARE) - Verbal Mention
4. Shaurya Dogra(FE Comp) - Verbal Mention

SSLA MUN

1. Anmol Singh (SE IT) - Special Mention

The club's flagship event, AIT MUN 2026, drew participants from across the country and stood out as a significant milestone in the club's journey, further solidifying its reputation on the national stage.

RADIO CLUB

VISION

To foster a trusted and dispensable source of information, music and entertainment, strengthening the civic and cultural life of campus radio at AIT and beyond.

MISSION

1. Promote student's interest in broadcast radio and establish FM Radio through student-oriented activities to build mutual
   Co-operation and serve our campus needs.
2. Facilitate interdisciplinary and collaborative creative ideas to bring people, communication and electronics together.

Objectives of activity (min 2)	Exclusive event For First years to explore their field of interest in RJing and audio engineering domains
Description of activity (50-150 words)	We conducted an exclusive event for first-year students to help them explore their interests in creative domains like RJing, audio engineering, and stage engagement activities such as Mic Drop. The event provided a platform for newcomers to step out of their comfort zones and experience the thrill of voice modulation, sound editing, and public speaking. Through interactive sessions, hands-on activities, and live performances, students got a glimpse into the world of audio production and media. The event aimed to spark curiosity, build confidence, and encourage fresh talent to pursue their passion in these exciting fields.

Report for AY 2025-26

Centre of Excellence for AI and Robotics

Vision:

To foster a culture of innovation, hands-on learning, and interdisciplinary collaboration in the field of AI and Robotics, empowering students to become future-ready technocrats and problem-solvers.

Mission:

The mission of the CEAR Club is to provide a dynamic platform for students to explore and innovate in the fields of AI and Robotics. Through hands-on projects, technical workshops, and competitive events, the club aims to bridge the gap between theoretical knowledge and practical application. It fosters creativity, teamwork, and critical thinking while encouraging research and industry exposure.

Name of coordinator	Prateek Nehra
Program/Activity/Name	Arduino Workshop
Select one of the Program Type (Workshop/FDP/Seminar/conference/intercollege event/intra college event/ other)	Intra college
Start Date	24th January, 2026
End Date	25th January, 2026
Mode of event (offline/online)	Offline
Number of Student Participants	25
Number of Faculty Participants	1
Number of External Participants, If any	0
Objectives of activity (min 2)	1.Basics of Arduino 2.Technical Thinking
Description of activity(50-150 words)	To introduce first-year engineering students to the fundamentals of electronics and programming through hands-on experience with *Arduino microcontrollers*. The workshop aims to spark interest in embedded systems and robotics by teaching basic concepts such as circuit design, sensor integration, and coding in a beginner-friendly environment. By the end of the session, students will be able to build and program simple Arduino-based projects.

Faculty Name (Faculty involved in organizing event)	Dr. Avinash Patil
Student Name (student involved in organizing event)	Mantu Dutta, Aryan Singh, Aman Derker
Video URL (optional)	
Geo tagged Photograph1	
Program Outcomes(POs)	1. Basic Understanding of Microcontrollers 2. Hands-on Familiarity with Arduino IDE 3. Practical Circuit Building Skills 4. Problem-Solving , Logic Development and Foundation for Future Projects.

Machine Learning Workshop

Required Field	Information to be filled

Mode of event (offline/online)	Offline
Number of Student Participants	25
Number of Faculty Participants	1
Number of External Participants, If any	0
Objectives of activity (min 2)	1. Algorithm Understanding 2. Model Implementation

Description of activity(50-150 words)	The workshop introduced first-year engineering students to **machine learning fundamentals** through interactive sessions. Its aim was to spark interest in AI by covering core topics like data handling, basic algorithms, and model evaluation. By the end, students gained the ability to design and test simple ML models, building a foundation for future exploration in robotics, automation, and analytics.

Mode of event (offline/online)	Offline
Number of Student Participants	7 teams
Number of Faculty Participants	0
Number of External Participants, If any	7 teams
Objectives of activity (min 2)	1.Competitive Spirit 2. Technical Thinking
Description of activity(50-150 words)	In Robo Climbex, bots competed in a test of mobility, balance, and design. Participants built robots capable of climbing stairs, focusing on traction, stability, and control. The event showcased engineering creativity as teams tackled the challenge of vertical movement and uneven terrain, highlighting practical problem-solving in robotics.The event was a crowd-puller and fostered skills in mechanical design and control system.

Academic Year	2025-26
Name of coordinator	Prateek Nehra, Nancy
Program/Activity/Name	Robo Clench
Select one of the Program Type (Workshop/FDP/Seminar/conference/intercollege event/intra college event/ other)	Intercollege event
Start Date	29 March. 2026
End Date	29 March. 2026
Mode of event (offline/online)	Offline
Number of Student Participants	8 teams
Number of Faculty Participants	1
Number of External Participants, If any	7 teams
Objectives of activity (min 2)	1.Promoting innovation 2.A grip test
Description of activity(50-150 words)	In Robo Clench, bots were challenged to carry and transport objects using their robotic arms in an offline arena. Participants had to demonstrate precision in gripping while also navigating through a series of obstacles, testing both mechanical design and control systems. The event provided hands-on exposure to actuator mechanisms, obstacle negotiation, and practical problem-solving in robotics.
Faculty Name (Faculty involved in organizing event)	Dr. Avinash Patil

Select one of the Program Type (Workshop/FDP/Seminar/conference/intercollege event/intra college event/ other)	Intercollege event
Start Date	29 March. 2026
End Date	29 March. 2026
Mode of event (offline/online)	Offline
Number of Student Participants	12 teams
Number of Faculty Participants	1
Number of External Participants, If any	11 teams
Objectives of activity (min 2)	1. Encouraging Innovation 2. Strength & Stability Test
Description of activity(50-150 words)	In Robo Sumo, bots faced each other in an arena where the goal was to push opponents out of the ring. Participants designed and built combat robots that combined strength, stability, and strategy, testing mechanical design and control systems in a competitive setting. The event gave students practical exposure to drive mechanisms, balance optimization, and tactical problem-solving in robotics.
Faculty Name (Faculty involved in organizing event)	Dr. Avinash Patil

Mode of event (offline/online)	Offline
Number of Student Participants	15 teams
Number of Faculty Participants	1
Number of External Participants, If any	14 teams
Objectives of activity (min 2)	1.Technical thinking 2. Sensor test
Description of activity(50-150 words)	The Line Tracer event focused on algorithmic thinking and sensor integration. Participants built robots capable of detecting and following a pre-defined path using line sensors. This event introduced students to basic automation, real-world navigation techniques, and control logic.

Objectives of activity (min 2)	• Reached Zonals with two selected teams • Functional Prototypes built and presented as per competition theme • Applied Engineering Principles across design, electronics, and coding • On-spot Problem Solving during live evaluation rounds

Description of activity(50-150 words)	Participated in the SPPU Avishkar Competition, where two teams from our club were selected and advanced to the zonal rounds. The challenge involved presenting innovative prototypes under strict time and resource constraints, showcasing skills in mechanical design, electronics, and programming. Students collaborated to design and demonstrate functional models, applying principles of engineering while engaging in on-spot problem solving during live evaluation. The competition provided hands-on exposure to microcontrollers, sensor integration, and debugging, strengthening both technical knowledge and teamwork in a competitive academic setting...

Objectives of activity (min 2)	• Secured 3rd Position in Aquawar at IIT Guwahati's Techniche • Won Unique Design Award for innovative robot architecture • Designed & Built a manually operated aquatic robot optimized for stability, grip, and maneuverability in water challenges. Collaborated on Fabrication, motor selection, and control systems to meet competition requirements. Gained Hands-on Experience in mechanical design, embedded systems, and debugging under live event conditions
Description of activity(50-150 words)	Participated in Aquawar, a robotics competition requiring the design of a manually operated aquatic robot to perform tasks in a water-based arena. Our team secured 3rd position and won the Unique Design Award for innovative construction. The robot was optimized for stability, maneuverability, and grip in aquatic conditions, while being controlled through a wired/wireless interface for precise execution. Key contributions included chassis fabrication, motor selection, and control system integration, demonstrating strong mechanical design and responsive handling under competitive constraints. .

Objectives of activity (min 2)	• Showcasing Technological Innovation and Autonomy • Validating Real-World Industry Applications • Navigating Regulatory Frameworks and Airspace Strategy
Description of activity(50-150 words)	At Drone Expo 2025. This comprehensive activity successfully integrated cutting-edge academic research with practical industrial viability through four key elements: • Advanced Autonomy: The team demonstrated a fleet of custom carbon-fiber and 3D-printed micro-quadcopters executing synchronized swarm maneuvers in a GPS-denied environment, driven by onboard companion computers running ROS2 and localized SLAM. • Industrial Application: In a live-flying simulation, a primary UAV utilized integrated LiDAR and thermal imaging to autonomously detect structural anomalies on a mock pipeline rig. • Market & Regulatory Compliance: Beyond engineering, the team engaged corporate delegates with a low-cost localized communication protocol designed to reduce fleet manufacturing costs.

Number of Faculty Participants	1
Objectives of activity (min 2)	• Foster Civil-Military Collaboration • Accelerate Indigenization of Defence Technology
Description of activity(50-150 words)	The STRIDE (Strategic Technology for Research, Innovation, and Defence Excellence) Seminar, hosted by the Southern Command, serves as a critical bridge between the Indian Army, academia, and the private defense industry. The primary focus is to integrate cutting-edge dual-use technologies such as Artificial Intelligence, autonomous systems, and advanced robotics into military operations. The event facilitates high-level dialogues to identify operational gaps and match them with innovative solutions developed by startups and research institutions. By showcasing indigenous capabilities, the seminar aligns with the "Atmanirbhar Bharat" initiative, aiming to reduce dependency on foreign imports and build a self-reliant defense ecosystem. Participants engage in technical sessions and equipment demonstrations, ensuring that future force modernization is driven by domestic intellectual property and robust engineering. This collaborative environment ensures that the latest advancements in technology are effectively transitioned from the lab to the battlefield.

Session plan/Brochure/Document/overall report of the activity **(JPEG or PDF Format max size 2 Mb)**	Thrilled to share the success of our recent event, E-Visualise, where we embarked on an immersive journey into the fascinating world of electric vehicles and electronics! 🚗⚡ E-Visualise wasn't just a test; it was an engaging exploration that brought together students from diverse departments and academic years. Through a meticulously crafted test structure, participants dived into the intricacies of motor controllers, gearboxes, axles, batteries, fuel cells, wireless charging, accessories, braking systems, steering mechanisms, and more! Beyond the test, E-Visualise fostered a vibrant environment of interdisciplinary learning and collaboration, where students from various backgrounds exchanged ideas, insights, and experiences. It was a platform not only to expand knowledge but also to ignite curiosity and inspire innovation. A heartfelt thank you to all participants, faculty, and organizers for their enthusiasm and dedication in making E-Visualise a resounding success! Let's continue pushing the boundaries of technology and sustainability together! 🚀

Objectives of activity (min 2)	1. To introduce first-year students to the fundamentals of cybersecurity, ethical hacking, and digital safety. 2. To raise awareness about real-world cyber threats and responsible use of technology. 3. To inspire students to explore cybersecurity as a career and engage with ISDF activities.
Description of activity	Lumina Classes is a 4-day introductory offline session organized by ISDF (Information Security Defense Forum), AIT, for first-year students. Conducted from 9th to 12th August 2025, the program covered the basics of cybersecurity, ethical hacking, network security, and common cyber threats.

Name and Sign of Club/ Cell/ Session IC

	Students participated in live demonstrations, interactive Q&A sessions, and group discussions. The event aimed to build a strong foundational understanding of digital security and encourage students to pursue cybersecurity. Under the guidance of Prof. Sagar Rane, the sessions were engaging and informative for all attendees.

Academic Year	2025-26
Name of coordinator	Prof. Sagar Rane
Program/Activity/Name	Hide & Seek
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	CTF Competition
Start Date	14th September 2025
End Date	15th September 2025
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	25
Number of Faculty Participants	
Number of External Participants, If any	
Expenditure Amount, If any	₹36,000
Objectives of activity (min 2)	1. To enhance practical problem-solving skills in cybersecurity. 2. To provide exposure to real-world CTF challenges involving web, crypto, binary, and network security.
Description of activity	Hide & Seek was an offline Capture The Flag (CTF) competition where participants solved cybersecurity challenges across multiple domains such as cryptography, web exploitation, binary exploitation, and network security. The event encouraged teamwork, analytical thinking, and hands-on technical learning in a competitive environment.

Session plan/Brochure/Document/overall report of the activity **(JPEG or PDF Format max size 2 Mb)**	On the occasion of Kargil Vijay Diwas, our team organized a movie screening to pay tribute to the brave soldiers who sacrificed their lives for the nation. The screening was conducted to remember the courage, dedication, and patriotism shown by the Indian Army during the Kargil War. Students watched the movie with great interest and felt inspired by the real stories of bravery and sacrifice. The activity created a sense of national pride, respect, and gratitude towards the armed forces among all participants. It was a meaningful

Session plan/Brochure/Document/overall report of the activity **(JPEG or PDF Format max size 2 Mb)**	The Indian Army Day program, organized on 15th January by the **NSS Club** of Army Institute of Technology, was conducted successfully with active participation from students across various departments. The event was organized to commemorate Indian Army Day and to honour the courage, discipline, and sacrifices of the brave soldiers who serve the nation. The program commenced with a creative writing competition, which provided students with a platform to express their thoughts, emotions, and respect for the Indian Army through essays, poems, and short stories. This was followed by an army-based movie screening that showcased inspiring stories of valour, leadership, and dedication, leaving a strong impact on the audience. The final event was a quiz competition that tested and enhanced students' knowledge of military history, achievements, and national heroes. Overall, the activities were well-organized and informative, successfully instilling a sense of patriotism, national pride, and respect for the armed forces among the participants. The event concluded on a meaningful note, reinforcing the importance of unity, discipline, and service to the nation.

Objectives of Activity (min 2)	1. To promote inner well-being, mindfulness, and emotional balance among students. 2. To encourage self-discipline, mental clarity, and a deeper understanding of social responsibility through meditation and reflection.
Description of Activity	As part of the 7-day NSS Camp, the volunteers of AIT Pune visited the Heartfulness Meditation Centre. The session included guided meditation, breathing exercises, and a discussion on the importance of emotional wellness in everyday life. Trained instructors explained how meditation can help reduce stress, improve focus, and build compassion—qualities essential for personal growth and community service. The peaceful environment offered students a

Objectives of Activity (min 2)	1. To promote environmental awareness and responsibility among students. 2. To contribute towards improving greenery and cleanliness of natural resources.
Description of Activity	A Tree Plantation and River Cleaning drive was organized by students and faculty of **NSS Club** to promote environmental sustainability. Students actively participated in planting saplings in designated areas to increase green cover. Simultaneously, a river cleaning activity was conducted where participants collected plastic waste and other pollutants from the riverbank. The activity helped in spreading awareness about pollution control, conservation of nature, and the importance of maintaining a clean environment.

(JPEG or PDF Format max size 2 Mb)	Technology, Pune, with the aim of promoting environmental awareness and sustainable practices among students. The activity witnessed enthusiastic participation from students, faculty members, and local volunteers. The event began with a tree plantation drive within and around the campus, where participants planted a variety of saplings to enhance the green cover and contribute to ecological balance. Students were educated about the importance of trees in maintaining biodiversity, reducing pollution, and combating climate change. Following this, a river cleaning activity was carried out at Khadakwasla Lake. Participants actively engaged in collecting plastic waste, bottles, wrappers, and other pollutants from the area. The waste was properly segregated and disposed of to ensure minimal environmental impact. The activity highlighted the harmful effects of water pollution and the need for responsible waste management. The NSS volunteers also conducted awareness interactions, encouraging people to avoid littering and adopt eco-friendly habits in their daily lives. The event not only contributed to environmental cleanliness but also instilled a sense of social responsibility and teamwork among the participants. Overall, the activity was impactful in spreading awareness about environmental conservation and demonstrated the commitment of the NSS Club towards building a cleaner and greener society.

Objectives of activity (min2)	• Promote mental and physical wellness through outdoor cycling activities. • Improve climbing ability, coordination, and confidence during challenging routes
Description of Activity (50-150 words)	The Cycling Club conducted a 38 km ride to Parvati Hill, involving city navigation and uphill cycling segments. The activity provided participants with an opportunity to enhance stamina and riding efficiency while experiencing one of Pune's culturally significant landmarks. Riders followed safety protocols, maintained riding formations, and supported one another throughout the journey. The ride encouraged determination, discipline, and adaptability during physically demanding stretches. It also helped students balance fitness, recreation, and cultural appreciation through a well-organized group activity.

Activity No. 39

Pashan Lake Ride

Required Field	Information to be Filled
Link for publicity on social media (Facebook/Twitter/ Instagram)	ps://www.instagram.com/ait_cycling_club/
Academic Year	2025-26
Name of Coordinator	Sachin
Program/ Activity Name	Pashan Lake Ride
Select one of the Program Type (workshop/FDP/seminar/conference/intercollege event/intra event/other)	Cycling Ride
Start date	19 April 2026
End date	19 April 2026
Mode of session delivery(offline/online)	Offline
Number of Student Participants	20
Number of Faculty Participants	NA
Number of External participants, If any	NA
Expenditure Amount, If any	NA
Objectives of activity (min2)	• Encourage outdoor fitness and eco-friendly commuting practices. • Develop endurance and coordinated riding abilities during group travel.
Description of Activity (50-150 words)	The Cycling Club conducted a 44 km ride to Pashan Lake, offering participants an opportunity to experience endurance cycling alongside a scenic natural destination. The ride involved coordinated navigation through urban roads while

Name and Sign of Club/ Cell/ Session IC

	maintaining discipline and road safety measures. Participants improved stamina, riding confidence, and group communication throughout the journey. The peaceful environment around the lake provided a refreshing break and promoted awareness about nature conservation and sustainable outdoor activities. The event successfully combined recreation, fitness, and experiential learning.

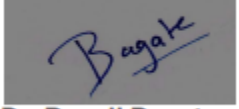
EVENT: FE INDUCTION

Required Field	Information to be filled
Link for publicity on social media (Facebook/twitter/ Instagram)	
Academic Year	2025-26
Program driven by (to be decided by social media coordinator)	AIT GDSC Team, Open Source Software Club
Program/Activity/Name	FE Induction
Select one of the program types (Workshop/ Leadership Talk/ Motivation speech/ Field Visit / Other)	Other
Start Date	21 July 2025
End Date	21 July 2025
Number of Student Participants	480
Number of External Participants, if any	-
Mode of session delivery (offline/online)	Offline
Number of faculty Participated	3
Expenditure Amount, if any	-
Remark	Nil
Description of activity(50-150 words)	The club's induction for first-year students introduced new students to the club's activities, goals, and opportunities. It started with a welcome speech and a brief presentation of the club's mission, achievements, and upcoming events. Fun ice-breakers and Q&A sessions were included to engage students and answer their queries. Students learned to join, participate in activities, and network with senior members. The induction concluded with an informal social session for networking.

GDSC Faculty Incharge:



Dr. Rupali Bagate

Faculty Name (Faculty involved in organizing the event)	1. Dr. Rupali Bagate

Objective	• Introduction of the club to First Year students. • Encourage participation by explaining the benefits and opportunities
Student Name (Student involved in organizing event)	All GDSC Members
Photograph1 (Jpeg Format max size 2 mb) which show strength of audience (can attach separate file)	
Mentioned the Pos mapped with the activity	PO1,PO2,PO3,PO4,PO8,PO10,PO11,PO12

Overview of the Event:

The Google Developer Student Club (GDSC) of AIT conducted its **FE Induction Program** on 21st July 2025 with the objective of introducing first-year students to the vision, mission, and activities of the club. The session began with a warm welcome and a brief presentation on GDSC's role in fostering technical skills, innovation, and collaboration among students. The coordinators highlighted the benefits of joining the club, such as gaining access to global developer resources, participating in exclusive events, and networking with like-minded peers.

The induction also included **interactive sessions** such as ice-breakers and open Q&A, which provided students with a platform to engage with senior members and clarify their doubts about opportunities within the club. The event emphasized the importance of developing problem-solving skills, contributing to projects, and participating in hackathons and study jams. Through these discussions, students gained valuable insights into how the club acts as a bridge between academic learning and industry expectations.

The program concluded with an **informal networking session**, allowing students to connect with GDSC members and mentors in a collaborative atmosphere. This helped build confidence and enthusiasm among the newcomers while also setting the tone for their active participation in upcoming events and workshops. The induction successfully ignited curiosity, inspired innovation, and laid a strong foundation for the FEs.

Mentioned the Pos mapped with the activity	PO1, PO2, PO3, PO4, PO5, PO12

Overview of the Event:

The **Aptos Bootcamp**, organized by the **Google Developer Student Club (GDSC) of AIT Pune**, was successfully conducted on **17 August 2025**. The bootcamp was designed to introduce students to emerging technologies such as **cloud computing and blockchain**. It provided participants with an opportunity to understand the fundamentals of decentralized systems and how modern cloud platforms support blockchain applications.

During the session, students explored how **blockchain technology works**, including concepts such as decentralization, smart contracts, and the role of blockchain in building secure and transparent digital systems. The bootcamp also highlighted the importance of **cloud infrastructure** in deploying and managing modern applications.

A key highlight of the event was the **hands-on learning experience**, where students created a **simple project using the Aptos Move programming language**. Through this activity, participants learned how developers build and deploy applications on the **Aptos blockchain network**.

Overall, the bootcamp was an engaging learning experience that helped students **gain practical knowledge, explore Web3 technologies, and develop an interest in blockchain development**. The session encouraged students to experiment with new technologies and expand their skills in the rapidly growing field of decentralized computing.

Overview of the Event:

The **Frontend Jams** session, organized by the **Google Developer Student Club (GDSC)**, was designed to introduce students to modern frontend development and provide practical exposure to building user interfaces for the web. The session focused on helping participants understand how modern tools and frameworks simplify the process of creating responsive, interactive, and visually appealing web applications.

During the session, students were introduced to **React** and **Tailwind CSS**, two widely used technologies in modern frontend development. Through demonstrations and guided examples, participants learned about component-based architecture, reusable UI elements, and the advantages of utility-first styling. The workshop emphasized practical implementation, showing how developers can efficiently structure frontend projects and build responsive layouts that adapt to different screen sizes.

The session also encouraged hands-on learning and collaboration, allowing students to explore real-world frontend development practices. Participants gained insights into organizing code, improving development workflows, and designing clean user interfaces. By the end of the session, students developed a clearer understanding of how modern frontend technologies are used in industry and were motivated to continue exploring web development and building their own projects.

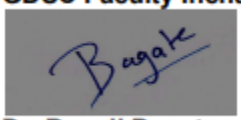
Overview of the Event:

The Freshers' Season of Code (FSOC) was organized by the Google Developer Student Club (GDSC), Army Institute of Technology in collaboration with the Open Source Software Club (OSS) from 1st October 2025 to 5th October 2025. The event was conducted in **online mode through GitHub** and was specially designed for first-year students.

The event aimed to introduce students to **open-source development and practical coding practices**. Participants were required to solve and debug coding issues available in GitHub repositories and submit their solutions through pull requests. This helped students **understand version control, issue tracking, and collaborative development**.

Overall, the event encouraged students to explore open-source technologies and improve their coding and debugging skills while collaborating with peers.

GDSC Faculty Incharge:



Dr. Rupali Bagate

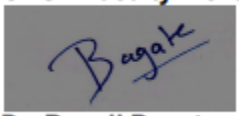
Overview of the Event:

The **Google Cloud Study Jams** organized by the **GDSC/GDG on Campus AIT Pune** was conducted from **1 October to 31 October** as a month-long learning program for students interested in cloud computing. The event aimed to provide participants with practical exposure to **Google Cloud Platform (GCP)** through guided learning sessions and hands-on labs.

During the program, students explored the fundamentals of **cloud computing, cloud infrastructure, networking, storage, and application deployment** using Google Cloud tools. Participants completed interactive labs and challenges through the **Google Cloud Skills Boost (Qwiklabs) platform**, which allowed them to apply theoretical concepts in real-time environments. These hands-on activities helped students gain practical experience in working with cloud technologies and modern development tools.

Throughout the month, the Study Jams encouraged **collaborative learning**, where students worked together, solved technical problems, and discussed cloud concepts with mentors and peers. By completing various cloud labs and learning pathways, participants developed essential skills in **cloud computing, DevOps practices, and modern application deployment**, preparing them for future opportunities in the field of cloud technology.

GDSC Faculty Incharge:



Dr. Rupali Bagate

Overview of the Event:

The **Backend Jams** session, organized by the Google Developer Student Club (GDSC) of AIT, was conducted to introduce students to the fundamentals of backend development and server-side technologies. The event aimed to help participants understand how web applications function behind the scenes through servers, APIs, and data communication.

During the session, students were **introduced to RESTful APIs and Express.js,** a popular Node.js framework used for building backend services. Through demonstrations and guided explanations, participants learned how to set up an Express server, create API routes, handle requests and responses, and structure backend applications effectively. The session highlighted how backend systems manage data and interact with frontend applications.

The event also emphasized practical learning and collaborative exploration of backend concepts. Students gained insights into real-world backend workflows and the role of APIs in connecting different parts of an application. Overall, **the Backend Jams session provided a strong foundation for students interested in backend** and full-stack development, encouraging them to further explore server-side technologies and build complete web applications.

Overview of the Event:

DevDash was a week-long technical learning event exclusively designed for **First Year Engineering Students (FES)** and conducted from **27 December to 2 January** at **AIT Pune**. The event aimed to introduce beginners to the fundamentals of **full-stack development**, focusing on both **frontend and backend technologies** while solving a real-life problem through project-based learning.

During the event, students were guided through the basics of **frontend development**, including building user interfaces and understanding how websites are structured and styled. They were also introduced to **backend development**, where they learned how servers, databases, and application logic work together to power web applications.

A key highlight of DevDash was the **hands-on project approach**, where participants worked on developing a simple solution to a **real-world problem**. This allowed students to understand how frontend and backend components connect to build a complete functional application.

Overall, the event provided FES students with a strong introduction to **full-stack web development**, helping them gain practical knowledge, improve problem-solving skills, and build confidence in developing real-world technical projects.

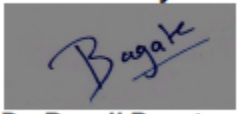
Event: App Dev Jams

Required Field	Information to be filled
Academic Year	2025-26
Program driven by (to be decided by social media coordinator)	AIT GDSC Team ,Google developer Groups on Campus (GDGoC) Pune
Program/Activity/Name	App Dev Jams
Select one of the program types (Workshop/ Leadership Talk/ Motivation speech/ Field Visit / Other)	Workshop
Start Date	10 December 2025
End Date	15 December 2025
Number of External Participants, if any	NIL
Mode of session delivery (offline/online)	Online
Number of Students Participated	20+
Number of faculty Participated	Nil
Expenditure Amount, if any	3,235-/

Benefit in terms of learning/skill/knowledge obtained	● Learned the fundamentals of Android application development and mobile app architecture. ● Gained hands-on exposure to Android development tools and the app development workflow. ● Understood key concepts such as activities, layouts, and user interface design in Android apps. ● Developed problem-solving skills while learning how to structure and build basic mobile applications.

Objective	• Introduce students to the fundamentals of Android application development. • Provide practical exposure to tools and frameworks used in Android development. • Help students understand the process of designing and building mobile applications. • Encourage students to explore mobile app development as a technical skill. • Promote online learning and accessibility through interactive virtual sessions.
Faculty Name (Faculty involved in organizing event)	Dr. Rupali Bagate
Student Name (Student involved in organizing event)	All GDSC Team
Photograph1 (Jpeg Format max size 2 mb) which show strength of audience (can attach separate file)	
Mentioned the Pos mapped with the activity	PO1,PO2,PO3,PO5,PO10,PO12

GDSC Faculty Incharge:



Dr. Rupali Bagate

Overview of the event:

The **App Dev Jams** session, organized by the **Google Developer Student Club (GDSC)** of AIT, was conducted as a series of **online sessions focused on Android development**. The event aimed to introduce students to the fundamentals of mobile application development and provide an accessible platform for learning app development concepts remotely.

During the sessions, participants were introduced to the Android development ecosystem and the tools used to build mobile applications. The workshop covered key topics such as **Android Studio setup, application structure, user interface design, and the role of activities and layouts in Android apps**. Through guided explanations and demonstrations, students gained a foundational understanding of how Android applications are created and structured.

The online format allowed students to participate conveniently while interacting with mentors and peers. The sessions encouraged curiosity and exploration of mobile technologies, motivating participants to continue learning Android development and apply these skills to create their own mobile applications in the future.

Overview of the event:

App Dev Contest 3.0, organized at **AIT Pune**, was conducted from **11 January to 17 January** to encourage students to apply their development skills to solve **real-world problem statements**. The competition was open to students from **First Year , Second Year , and Third Year** , providing them with a platform to showcase their creativity, technical knowledge, and problem-solving abilities.

During the contest, participants worked in teams to design and develop **innovative applications** that addressed practical challenges. Students focused on building functional solutions by applying their knowledge of **app development, programming, and modern technologies**.

The event promoted **innovation, teamwork, and practical learning**, allowing students to experience the process of turning ideas into working applications. Overall, App Dev Contest 3.0 served as an excellent opportunity for participants to enhance their **technical skills, collaborate with peers, and gain experience in solving real-world problems through technology**.

Overview of the Event:

The **Flutter Contest**, organized by the **Google Developer Group (GDG) at Army Institute of Technology, Pune**, was conducted from **20 February to 24 February** exclusively for **First-Year Engineering students**. The contest aimed to encourage beginners to explore **mobile application development using the Flutter framework** while showcasing their creativity and technical skills.

Participants took part individually or in **teams of 1–2 members**, where they worked on developing innovative mobile app ideas using **Flutter and Dart**. The event provided an excellent opportunity for students who were either experienced in coding or just beginning their **mobile development journey**.

Throughout the contest, students focused on designing and building **creative and functional mobile applications**, applying their knowledge of Flutter widgets, UI design, and app functionality. The contest promoted **hands-on learning, innovation, and collaboration**, helping students gain practical exposure to mobile app development.

Overall, the Flutter Contest encouraged students to **"Learn How to Flutter"**, enhance their development skills, and confidently showcase their ideas through real mobile applications.

Overview of the Event:

The **ML Study Jams**, organized by the **Google Developer Student Club (GDSC)** of AIT, was conducted as a series of online sessions focused on introducing students to the basics of **Machine Learning** using **Python**. The event aimed to help beginners understand fundamental **ML concepts** and develop interest in **Artificial Intelligence** and data-driven technologies.

During the sessions, **GDSC senior members** guided participants through Python programming for Machine Learning and explained concepts such as **data handling**, **model training**, and **prediction techniques**. Students were also introduced to commonly used **Python libraries** and tools used in ML development.

The sessions emphasized **practical learning** through coding demonstrations and interactive explanations, allowing students to understand how **Machine Learning models** are developed and applied in real-world scenarios. Overall, the event provided participants with a strong introduction to **Machine Learning**, improved their programming and analytical skills, and encouraged them to further explore **AI and ML technologies**.

Overview of the Event:

GDG WOW, organized by **GDGoC Pune** at **DY Patil College**, was a **one-day technical event** conducted to bring together students, developers, and industry experts for learning and networking. The event consisted of multiple seminars and guest lectures focused on **modern technologies, developer communities**, and career growth in the tech industry.

During the event, participants attended sessions conducted by experienced speakers and professionals who shared their **knowledge, experiences,** and insights about **emerging technologies and real-world development practices**. The seminars provided students with valuable exposure to industry trends and technical opportunities.

A major highlight of the event was the opportunity to **interact** with **developer beginners**, **experienced professionals**, and students from different colleges. Participants were able to **build connections, exchange ideas,** and engage with the broader developer community in a collaborative environment.

Overall, **GDG WOW served as an informative and interactive learning experience** that helped students gain technical insights, expand their professional network, and become more connected with the developer ecosystem.

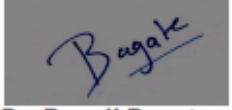
Ove

GDSC Faculty Incharge:



Dr. Rupali Bagate

Overview of the event:

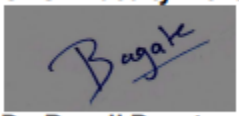
Enliven, organized by **GDG-AIT**, was a one-day online **hackathon** conducted to encourage students to develop **innovative technical solutions** and apply their development skills in a competitive environment. The event aimed to provide participants with **practical exposure** to **problem-solving, teamwork**, and **project development.**

During the hackathon, participants worked individually or in teams to **brainstorm ideas, design solutions**, and develop projects within a limited timeframe. Students focused on solving **real-world challenges** using **modern technologies** and **creative approaches**. The online format allowed participants to collaborate remotely while interacting with mentors and fellow developers throughout the event.

The hackathon encouraged **innovation, technical exploration**, and **hands-on learning**, helping students improve their **coding, analytical thinking**, and **teamwork skills**. Participants also gained experience in presenting their ideas and showcasing their projects in front of organizers and peers.

Overall, Enliven served as an engaging learning experience that promoted **creativity, collaboration**, and **practical application** of **technical knowledge** while motivating students to further explore development and innovation

GDSC Faculty Incharge:



Dr. Rupali Bagate

Overview of the Event:

Tech Friday is an initiative by **GDG AIT** where informative Instagram posts related to System Design concepts are shared every Friday for students and developers. The initiative aims to spread awareness about **modern software architecture, backend systems**, and **scalable application design** through simple and **engaging technical content.**

Through these weekly posts, students are introduced to **important System Design topics** such as scalability, databases, caching, load balancing, APIs, and distributed systems. The content is designed to simplify **complex technical concepts** and help beginners understand how real-world applications and large-scale systems function.

The initiative promotes consistent learning and **encourages students** to stay connected with modern industry practices and development concepts outside the classroom environment. By regularly engaging with technical content, students gain **exposure to advanced software engineering topics** and **improve** their overall **technical understanding.**

Overall, **Tech Friday** serves as an **effective knowledge-sharing initiative** that encourages continuous learning, technical curiosity, and community engagement among students interested in software development and system architecture.

Report for AY 2025-26

Name of Club: AR-VR Club

VISION

To become an impactful club within AIT, dedicated to offering exceptional technical insights and opportunities for members interested in the XR Development, 3D art and Game Development. We aspire to be a hub for cutting-edge discussions, fostering a community that contributes to advancements and research in the field.

MISSION

Our mission at the AIT AR-VR Club is to establish a constructive game development and xtended reality environment. We strive to build a diverse and inclusive club that is dedicated to the continuous advancement of knowledge in the field. Our primary goal is to promote game development and 3D art and ethics within the college and the broader community, fostering a sense of responsibility and awareness among our members.

Academic Year	2025-2026
Name of coordinator	Prof. Mangesh Hajare
Program/Activity/Name	AR-CADE
Select one of the Program Type (Workshop/FDP/Seminar/Conference/ Other)	Inter college Event
Start Date	05-04-2026
End Date	05-04-2026
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	25
Number of Faculty Participants	0
Number of External Participants, If any	15
Expenditure Amount, If any	-
Objectives of activity (min 2)	1. Develop an AR filter. 1. Filter must be according to theme.
Description of activity	The Arcade AR Challenge, immersed participants in the world of Augmented Reality (AR) filter creation. With various participants across India, the event focused on crafting interactive AR experiences aligned with the chosen theme. The creations showcased a remarkable fusion of creativity and technology. The event was a resounding success, creating a sense of community and leaving participants inspired to push the boundaries of AR technology in future endeavors.

Academic Year	2025-2026
Name of coordinator	Prof. Mangesh Hajare
Program/Activity/Name	Basics Of Unity
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	Intra college Event
Start Date	27-07-2025
End Date	23-08-2025
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	300
Number of Faculty Participants	0
Number of External Participants, If any	0
Expenditure Amount, If any	0
Objectives of activity (min 2)	1. Teach students about unity engine. 1. Help them understand basics of game development.
Description of activity	Basics of Unity classes were conducted for first-year students to introduce them to the software. In these sessions, the fundamentals of the Unity engine were taught to aspiring game developers. The classes were extremely successful, with the tutorials proving to be both motivating and inspiring. Students left with a strong foundation in game development and a renewed enthusiasm for exploring the field further.

Objectives of activity (min 2)	1. Idea about developing game assets. 2. Submit Game Ready Assets.
Description of activity	Basics of Blender sessions were conducted for first-year students, providing them with an introduction to this powerful 3D modeling software. Aspiring artists and designers were immersed in the fundamentals of Blender, equipping them with essential skills for 3D modeling. The classes received an enthusiastic response, with a high turnout that highlighted strong interest in the field. Students left with newfound proficiency and a solid foundation in 3D modeling and animation.

Report for AY 2025-26
Open Source Software

VISION

Cultivate a thriving community of student open-source advocates, driving the adoption of innovative and accessible technologies for technical development and setting industry standards.

MISSION

Develop technically proficient developers by creating a space for active participation in and contribution to the open-source community, while enhancing individual skills.

Name of Faculty In-Charge		
1	Prof Vaishali Ingale	
2	Prof Kuldeep Hule

Event: "SPARK 2025"

Overview of the Event:

SPARK is a month-long initiative organized exclusively for first-year engineering students to introduce them to the exciting world of web development. The event is designed to help beginners explore the fundamentals of modern web technologies and understand the growing importance of web development in today's digital era. Through a structured learning approach, students are encouraged to enhance their technical knowledge, creativity, and problem-solving abilities while building confidence in their skills.

Select one of the program type (Workshop/Leadership Talk/ Motivation speech/ Field Visit / Other)	Other
Select one of the program theme (IPR/Innovation/Entrepreneurship/Startup/Other)	Other
Start Date	24 August, 2025 Time : 21:00 hrs
End Date	25 August, 2025 Time: 21:00 hrs
Number of External Participants, if any	NA
Mode of session delivery (offline/online)	Online
Number of Students Participated	150+
Number of faculty Participated	NA
Expenditure Amount , if any	-
Remark	Nil
Benefit in terms of learning/skill/knowledge obtained	**1. Reinforced Core Knowledge and Precision:** Mastered HTML/CSS/JS by achieving pixel-perfect replication, integrating theory with layout accuracy and detail-oriented execution.

Prof. Vaishali Ingle
OSS Faculty Incharge

	2. Elevated Debugging and Problem-Solving Skills: Enhanced debugging skills by rapidly identifying and correcting code errors to match the target screenshot exactly. **3. Enhanced Project Execution and Time Management:** Simulated a professional sprint, enhancing time management, task prioritization, and end-to-end project execution.
Objective	**1. Test the Basics:** The event is about making sure participants can truly use the HTML, CSS, and JavaScript they were taught, not just memorize it. **2. Learn to Be Exact:** The goal is to teach students how to make their code look exactly like the picture. This builds the critical skill of precision and attention to detail needed in real-world design. **3. Build a Real Project**: Everyone will finish the event with one complete, working front-end project that they can immediately show off in their portfolio.

Event: "REPLICA 2025"

Overview of the Event:

REPLICA is a high-impact, practical challenge designed to transition web development students from theory to real-world execution. Participants are given a static screenshot of a live webpage and must use their foundational knowledge of HTML, CSS, and JavaScript to recreate it exactly.Ultimately, the event's objective is to provide every participant with a tangible**,** verifiable project, a high-fidelity website replica, that serves as a powerful and impressive asset for their professional portfolio.

Expenditure Amount , if any	₹ 15306
Remark	Nil
Benefit in terms of learning/skill/knowledge obtained	**1. Practical Skill Application:** Students moved beyond theoretical knowledge by applying new or existing skills in web development and design to simulate a real-world project environment. **2. Holistic Idea Development :** Participants learned

Prof. Vaishali Ingle
OSS Faculty Incharge

	to transform vague concepts into complete packages, mastering technical implementation and concise pitch communication for audience value. **3. Exposure to the Hackathon Workflow:** Students learned the hackathon lifecycle (brainstorming to pitching), understood the process and building confidence for future events.
Objective	**1. Introduce the Hackathon Culture:** To provide first-hand exposure to the fast-paced, collaborative, and innovation-driven environment of a hackathon. **2.Develop Foundational Web Skills:** Encourage them to quickly apply web development knowledge by creating a functional prototype under a strict time limit. **3. Pitching Skills**: Equip participants with the soft skill to clearly pitch the problem, solution, and value of their technical project.

Event: "GRAPHICA 2025"

Overview of the Event:

GRAPHICA was a focused, mini-hackathon specifically designed to bridge academic theory with social practice and introduce freshers to the full lifecycle of competitive innovation. This hands-on challenge demonstrated the real-world utility of their studies, compelling participants to move from abstract thinking to creating a tangible Minimal Viable Product (MVP) under a strict time limit. By requiring a final pitch, Graphica emphasized holistic idea development, ensuring students not only mastered technical implementation but also the essential soft skill of clearly articulating their project's value and potential impact to an audience, thereby building confidence for future large-scale events.

Remark	Nil
Benefit in terms of learning/skill/knowledge obtained	**1. Practical Skill Development:** Participants gained hands-on experience by directly contributing to a real-world open-source codebase, moving beyond theory to build practical skills in their chosen technology stack.

Prof. Vaishali Ingle
OSS Faculty Incharge

	2. Problem-Solving Mastery: By tackling problems categorized as easy, medium, and hard, students developed adaptable problem-solving and debugging techniques, learning to break down complex issues into manageable parts. **3. Collaborative Knowledge:** Engaging with mentors and other contributors fostered an understanding of professional software development workflows, including version control (like Git) and code review, which are essential for team collaboration.
Objective	**1.Onboard New Talent to Open Source:** The primary goal is to introduce freshers to the culture, tools (like Git and GitHub), and practices of open-source contribution, transforming them from beginners into active community members. **2.To Bridge the Gap Between Theory and Practice:** To provide a structured, real-world environment where participants can apply theoretical knowledge to solve actual programming problems (categorized as easy, medium, and hard), thereby solidifying their coding and development skills. **3.To Foster a Collaborative Learning Ecosystem:** To establish a supportive mentorship and peer-to-peer network that encourages continuous learning, effective communication, and the development of professional software development workflow habits.

Event: "FSOC 2025"

<u>Overview of the Event:</u>

The Freshers Summer of Code (FSOC) was a dedicated open-source contribution event designed to introduce new students to real-world software development and the open-source ecosystem.Participants engaged directly with a live codebase and gained invaluable hands-on experience by working on structured projects. The event categorized problems into easy, medium, and hard, providing a clear learning path and motivating students to progressively enhance their problem-solving and coding skills.

The initiative's core success lies in empowering freshers to become active, skilled contributors in the world of open source.

Event: "SIH 2026 "

Overview of the Event:

The SIH 2026 event, organized by the OSS Club, was conducted from 18th September to 19th September 2026 with the aim of encouraging innovation, teamwork, and problem-solving skills among students. The event brought together enthusiastic participants who worked on real-world challenges and developed creative technical solutions. Various activities such as coding sessions, brainstorming discussions, project presentations, and mentoring interactions were organized throughout the event.

Participants gained practical knowledge, improved their technical abilities, and learned the importance of collaboration and leadership. The event also provided a platform for students to showcase their ideas and interact with experienced mentors and peers. Overall, SIH 2026 was a successful and inspiring event that promoted creativity, learning, and the spirit of innovation among young developers and technology enthusiasts.

Benefit in terms of learning/skill/knowledge obtained	1. **Real-World Skill Implementation at Innerve:** Participants moved beyond classroom theory by applying their web development and design skills in a fast-paced, real-world hackathon setting, turning ideas into

Prof. Vaishali Ingle
OSS Faculty Incharge

	functional prototypes under time constraints. 2. **End-to-End Idea Transformation:** Teams learned to convert abstract concepts into complete, user-focused solutions — combining technical execution, structured problem-solving, and impactful pitch delivery to effectively communicate value. 3. **Hands-On Hackathon Experience:** Through the Innerve hackathon journey — from ideation and rapid development to final pitching — students gained practical exposure to the full innovation lifecycle, building confidence and readiness for future competitive tech events.
Objective	1. **Fostering Hackathon Culture:** To immerse participants in the dynamic, collaborative, and innovation-driven ecosystem of the Innerve Hackathon, giving them first-hand experience of real-time problem-solving and teamwork under pressure. 2. **Strengthening Core Web Development Skills:** To enable students to rapidly apply foundational web development concepts by building a functional prototype within a defined time constraint, simulating real-world product development scenarios. 3. **Enhancing Technical Pitching Abilities:** To equip participants with essential communication skills to confidently articulate their problem statement, proposed solution, and value proposition in a clear and compelling manner.

Event: "INNERVE X 2026"

Overview of the Event – INNERVE Hackathon

INNERVE was designed as an immersive innovation challenge aimed at bridging academic learning with real-world problem-solving. The hackathon provided students-especially freshers with first-hand exposure to the complete lifecycle of competitive innovation, from ideation to final pitch.

Participants were encouraged to identify meaningful social or community-driven challenges, define a clear problem statement, and leverage their technical knowledge such as programming concepts, web development skills, and design thinking—to build a functional prototype as a solution.

Operating within strict time constraints, teams translated theoretical understanding into a tangible Minimum Viable Product (MVP), simulating a real-world development environment. The final pitching round further emphasized holistic development, requiring participants to effectively communicate their problem, solution, value proposition, and potential impact.

Through this experience, INNERVE not only strengthened technical proficiency but also enhanced collaboration, time management, and presentation skills—equipping students with the confidence and preparedness needed for larger-scale hackathons and future innovation-driven opportunities.

Academic Year	2025-26
Program driven by (to be decided by social media coordinator)	AIT Open Source Software Club
Program/Activity/Name	DEVERSE
Select one of the program type (Workshop/Leadership Talk/ Motivation speech/ Field Visit / Other)	Other
Select one of the program theme (IPR/Innovation/Entrepreneurship/Startup/Other)	Other
Start Date	28 March 2026 Time : 2100hrs
End Date	5 April 2026 Time: 2100hrs
Number of External Participants, if any	NA
Mode of session delivery (offline/online)	Online
Number of Students Participated	250+
Number of faculty Participated	3
Expenditure Amount , if any	₹ 41,000
Remark	Nil
Benefit in terms of learning/skill/knowledge obtained	**1. Practical Development Experience:** Students gained hands-on experience in software development by applying academic concepts to real-world problem-solving and project implementation. **2. Collaborative Learning and Teamwork:**

Prof. Vaishali Ingle
OSS Faculty Incharge

	Participants improved their communication, coordination, and teamwork skills by working collaboratively in groups and engaging in peer-to-peer learning. **3. Innovation and Critical Thinking:** The event encouraged participants to think creatively, analyze challenges critically, and design effective technical solutions in a structured manner.
Objective	1. To equip SE and TE students with practical development skills through hands-on experience and mentorship. 2. To encourage collaborative learning and bridge the gap between academic concepts and real-world applications.

Event: "DEVERSE "

Overview of the Event:

DeVerse is a 7-day technical event organized by the OSS Club for SE and TE students with the aim of enhancing practical development skills. The event focuses on hands-on learning through guided sessions, interactive activities, and real-world project exposure. Participants get the opportunity to explore modern development practices and improve their technical understanding. It creates a platform where students can learn beyond classroom concepts and gain industry-oriented experience.

The event also encourages teamwork, peer learning, and collaborative problem-solving among students. By working together on development tasks and projects, participants improve their communication and coordination skills. DeVerse helps bridge the gap between theoretical academic knowledge and real-world application by providing practical exposure to software development workflows. Through mentorship and collaboration, students build confidence, creativity, and readiness for future technical challenges.

Report for AY 2025-26

RESEARCH AND DEVELOPMENT CELL

VISION

To foster a culture of innovation and creativity by providing a collaborative platform where students can explore, develop, and transform ideas into impactful solutions that contribute to technological advancement and societal betterment.

MISSION

Our mission is to nurture research-oriented thinking, encourage interdisciplinary collaboration, and equip students with the skills and resources needed to design, prototype, and present innovative projects. Through workshops, competitions, and hands-on activities, we aim to bridge the gap between theoretical earning and practical implementation, empowering future leaders in research and development.

Academic Year	2025-26
Program driven by	IPR Day Quiz
Program	Online Quiz
Mode of Event (offline/online)	Online
Date of Event	26-04-25
Number of Students Participated	400
Amount	-
Faculty Name (Faculty involved in organizing event)	Dr. Seema Tiwari (Dean R&D)
Student Name (Students involved in organizing event)	AIT R&D Cell Student Team
Benefits of Event	□ Enhances awareness about Intellectual Property Rights (IPR) and their importance in innovation and creativity. □ Encourages students and participants to learn about patents, copyrights, trademarks, and industrial designs. □ Provides a convenient platform for participation from any location, increasing accessibility and reach. □ Promotes healthy competition and motivates participants to improve their knowledge of IPR concepts..
Objective of Event	□ To create awareness about Intellectual Property Rights (IPR) and their significance in today's innovation-driven world. □ To educate participants about different forms of IPR, such as patents, copyrights, trademarks, and industrial designs. □ To encourage students to understand the importance of protecting intellectual creations and innovations. □ To promote an innovation and research-oriented mindset among participants.

Program Outcomes (POs)

1. **PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and engineering specialization to the solution of complex engineering problems.
2. **PO2: Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **PO7: Environment and sustainability:** Understand the impact of professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **PO8: Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **PO9: Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **PO10: Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **PO11: Project management and finance:** Demonstrate knowledge and understanding of the
12. Engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
13. **PO12: Life-longlearning:** Recognize the need for and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

ARMY INSTITUTE OF TECHNOLOGY

APPOINTMENT OF STUDENT SECRETARIES

ACADEMIC YEAR 2026 – 27

1. Following TE students are appointed as secretaries of various Boards /Club for Academic Year 2026 – 27.

Sr. No.	Name of Board / Club	Name of Student Secretaries
1.	Technical & Maths Board	Ajay Singh Tomar, IT A Simran, IT B
2.	Cultural & Musical Board	Abhay Singh, E&TC A Himanshi Pathak, Comp A
3.	Sports Club	Himanshu Ranjan, ARE Ayesha Bisht, IT B
4.	Centre of Excellence for AI & Robotics	Tejas Jape, Mech Pragati, E&TC B
5.	Magazine Board	Adarsh Rana, Comp A Srinidhi Shettigar, ARE
6.	Spiritual Club	Gaurav, E&TC B Aman Jeet Kaur, ARE
7.	OSS Club	Anmol Singh, IT B Yashika Yadav, ARE
8.	NSS Club	Sahil Yadav, IT A Pooja Kumari, Comp B
9.	Fine Arts Club	Nishant Nehra, E&TC B Pooja C V, Mech
10.	Public Relation (PR)	Lucky Dhami, IT B Faiza Fatima, Comp B
11.	Debate, Quiz & Dramatics Clubs	Harshika Tyagi, Mech Vinayak Dadhwal, IT B
12.	Nature Club	Mohit Sharma, IT B Rashika, ARE
13.	Radio Club	Satyam Tripathi, Mech Sweta Dalal, ARE
14.	Information Security & Digital Forensic Club	Kumari Priyanshu, Comp B Gaurav Chand, ARE
15.	Code Programming Club	Sahil Kumar, Comp A Radhika Dodain, ETC B
16.	I & E Cell	Samiksha Sharma, Comp A
17.	EV Cell	Anshu Yadav, Mech
18.	R&D Cell	Sumeet Attri, E&TC A Dishti Pal, E&TC A
19.	AR-VR	Apoorva, ARE Anjali, ARE
20.	Film Club	Ayush Chahar, IT A Neha Biswas, Comp A
21.	Cycling Club	Kshitij Kumar, ARE Anshika Yadav, ARE
22.	Google Development Student Club (GDSC)	Peush Yadav, E&TC B Palak kumara, IT B
23.	Press News Cell	Lakkireddy Yagneswar Reddy, Comp B Debdutta Roy, IT B

Sr. No.	Name of Board / Club	Name of Student Secretaries
24.	Social Media Cell	Manasi, Comp B Deepanshu Singh Shekhawat, E&TC B,
25.	SAE – AIT Collegiate Club	Ramswaroop Swami, Mech
26.	College Innovation Development Club (CIDC)	Abhay Singh, IT B
27.	Astronomy Club	Ishaan M, ARE Manisha, IT B
28.	Drone Club	Mantu Dutta, E&TC Swasti Yadav, TE Mech
29.	Music and Dance Club	Mysaraa Acharya E&TC B

Report for AY 2025-26

Name of Club: SPORTS CLUB

VISION

Our vision is to be recognized amongst the best sporting Engineering Colleges across the nation.

MISSION

Our mission is to run a consistent sports development program providing student with opportunities to participate in competitive sporting activities while contributing to the social upliftment of the community.

Name of faculty in-charges	
1	Prof. Asha Sathe (Faculty Incharge)
2	Mr. Vishal Pardeshi (Physical Director)
Name of Student Secretaries	
1	Dheeraj Pandey
2	Shivani Dogra
Budget Allocated by Institute	18 Lakhs
Sponsorship received	70 Thousand

Name of activities/events conducted

Sr No.	Name of activity	Type (Inter college/ Intra college)
1	International Yoga Day	Intra- college
2	National Sports Day	Intra- college
3	SPPU Inter Collegiate , Zonal	Inter-Collegiate (SPPU District zone)
4	Invitational Inter Collegiate Competition	Inter –Collegiate
5	Sports Aakriti	Intra-Mural
6	AIT Sports Fest PACE 2026	Inter- collegiate

Name and Sign of Club/ Cell/ Session IC

Acitivity No.1
International Yoga Day

Required Field	Information to be filled

Academic Year	2025-26
Name of coordinator	Prof. Asha Sathe &Mr. Vishal Pardeshi
Program/Activity/Name	International Day of Yoga
Select one of the Program Type (Workshop/FDP/Seminar/conference/intercollege event/intra college event/ other)	Intra College
Start Date	21 June 2025
End Date	21 June 2025
Mode of event (offline/online)	Offline
Number of Student Participants	200+
Number of Faculty Participants	30+
Number of External Participants, If any	5+
Expenditure Amount, If any	6000 (Approx)
Objectives of activity (min 2)	1. The ancient practice of yoga that has stemmed from Indian culture is widely known to balance the body and mind of individual. 2. Yoga encourages mindfulness and being present in the moment. This can be particularly beneficial for college students dealing with a multitude of responsibilities and distractions.
Description of activity(50-150 words)	All the students,guests and joint director were seated in raman theatre on the mat and perform yoga.
Faculty Name (Faculty involved in organizing event)	Vishal Pardeshi

Name and Sign of Club/ Cell/ Session IC

Student Name (student involved in organizing event)	Dheeraj Pandey
Video URL (optional)	
Geo tagged Photograph1 **(JPEG Format max size 2 Mb which shows strength of audience /participants with speaker)**

Academic Year	2025-26
Name of coordinator	Prof. Asha Sathe & Mr. Vishal Pardeshi
Program/Activity/Name	Rookie Rumble(National Sports day)
Select one of the Program Type (Workshop/FDP/Seminar/conference/intercollege event/intra college event/ other)	Intra college
Start Date	06 Sept 2025
End Date	06 Sept 2025
Mode of event (offline/online)	Offline
Number of Student Participants	200+
Number of Faculty Participants	25+
Number of External Participants, If any	--
Expenditure Amount, If any	
Objectives of activity (min 2)	1.Creating awareness about the need and benefits incorporating sports and physical activities into our day to day life. 2. Aims to inspire the younger generation to participate in sports and lead an active lifestyle.
Description of activity(50-150 words)	The venue for the speech and Director sir address was Raman Theatre and for short marathon was our campus running track.
Faculty Name (Faculty involved in organizing event)	Prof. Asha Sathe & Mr. Vishal Pardeshi
Student Name (student involved in organizing event)	Dheeraj Pandey, Shivani Dogra and Sports club Joint Secretaries

Outcomes (POs)

1. **PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **PO2: Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **PO7: Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **PO8: Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **PO9: Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **PO10: Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

Name and Sign of Club/ Cell/ Session IC

11. **PO11: Project management and finance:** Demonstrate knowledge and understanding of the
12. engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
13. **PO12: Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

Objectives of activity (min 2)	● To introduce life in the Army , various regiments, hierarchy in the Army, weapons handling, physical training, cultural activities and interaction with soldiers.
Description of activity	The Army Attachment Camp held at 330 INF BRG with 13th Battalion Mahar Regiment from 01 August 2025 to 12 August 2025, was a remarkable opportunity to experience the discipline, training, and ethos of the Indian Army. Over the duration of the camp, cdts were exposed to various aspects of military life, from physical training to lectures, weapon handling, cultural activities, and interactive sessions with soldiers. The camp not only gave cdts a glimpse of the professional efficiency of the Army but also instilled values of courage, resilience, and teamwork.

Academic Year	2025-2026
Name of coordinator	Lt. Dr. Sandeep Bidwai
Program/Activity/Name	Combined Annual Training Camp -727
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	NCC Training Program
Start Date	01 Feb 2026
End Date	10 Feb 2026
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	03
Number of Faculty Participants	NA
Number of External Participants, If any	NA
Expenditure Amount, If any	
Objectives of activity (min 2)	• To impart trg to the NCC cdts during the CATC. • To make cadets eligible for 'B' & 'C' certificate exams for Trg Yr
Description of activity	During 10 days camp, Cdts participated into various activities like firing, sports, cultural. Cadet Aaryan Singh has achievement in firing competition.
Faculty Name (Faculty involved in organizing event)	Lt. Dr. Sandeep Bidwai
Student Name (student involved in organizing event)	NA

Academic Year	2025-2026
Name of coordinator	Lt. Dr. Sandeep Bidwai
Program/Activity/Name	Visit to National Defense Academy (NDA)
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	other
Start Date	22 March 2026
End Date	22 March 2026
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	46
Number of Faculty Participants	2
Number of External Participants, If any	
Expenditure Amount, If any	
Objectives of activity (min 2)	To introduce the culture of National Defence Academy, khadakwasla.
Description of activity	NCC Cadets have visited various blocks in National Defense Academy like Sudan Block, Cadet's Mess, Parade ground,ashoka piller, gol market, musium. Cdts have also interacted with training JCO's to know more about the schedule of NDA cadets and the disciplined environment.
Faculty Name (Faculty involved in organizing event)	Lt. Dr. Sandeep Bidwai
Student Name (student involved in organizing event)	CPL Akash Yadav, Cdt Taranjeet Singh

Academic Year	2025-2026
Name of coordinator	Lt. Dr. Sandeep Bidwai
Program/Activity/Name	Service Selection Board (SSB) coaching / Workshop by Col. Pradeep Dalvi (Retd.)
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	Other
Start Date	18 May 2026
End Date	27 May 2026
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	03
Number of Faculty Participants	1
Number of External Participants, If any	
Expenditure Amount, If any	Rs. 22500/-
Objectives of activity (min 2)	To provide a short 10 days' capsule for candidates to orient them with the various technique adapted at the SSB.
Description of activity	Cadtes have been trained on various parameters during 10 days capsul program. 1. Introduction to SSB process. 2.Familiarization to Screening out process. 3. Practice by the group, 4.SSB Psychological test, 5.GTO-Test- Indoor, 6.Interview techniques, 7.Mock tests and interviews

Program Outcomes (POs)

1. **PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **PO2: Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **PO7: Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **PO8: Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **PO9: Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **PO10: Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **PO11: Project management and finance:** Demonstrate knowledge and understanding of the
12. engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

Principal
Army Institute of Technology
Dighi Hills, Pune - 411015

13. **PO12: Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

DIRECTOR'S SECRETARIAT

APPOINTMENT OF STAFF IN-CHARGE AY 2026 - 27

1. Following faculty members are appointed for various Committee / Incharge /Coordinators / Boards / Club for AY 2026-27 :

Sr. No.	Type of Committee	Committee Members
1.	Anti-Ragging Squad	**Mr. Sachin Tanawade, Comp, IC** Sub Satish Yadav (Retd), Store IC Mr. Sunil Shikare, Mech Ms. Beauty Das, Warden Ms Shital Suvarnakar, IT
2.	Internal Complaint Committee: Sexual Harassment at Workplace	**Dr. Pritee Purohit, Chairperson** Mr. Vijaykumar Karra, E&TC, Teaching Rep Ms. Geeta Patil, IT Teaching Rep Ms. Rajashree C, E&TC, Non-Teaching Rep Ms. Manisha Taru, Comp, Non-Teaching Rep Ms. Sneha, LR, Student Council Dr. Adv. Sayali Ganu- External Member
3.	AIT Student Grievance Redressal Committee	**Col Sudip Khasnavis (Retd), Jt Director** Dr. BP Patil, Principal Dr. Swati Kulkarni, Dean (Student Affairs) Dr. R Jayadevan, Comp
4.	Students Disciplinary Enquiry Committee	**Mr. Yuvraj Gholap, Chairman** Dr. Shilpa Pawar, E&TC Ms. Shushma Shirke, Comp Sub Maj Sandeep Mahadik (Retd), Warden Sachin, President, Student Council Sneha, Student Council, LR
5.	Library Incharge & Library Committee	**Dr. Laxmikant Jathar, Mech, IC** Dr. Urmila Jagtap, Librarian Ms. M Chandola, Comp Ms. Anita Suryawanshi, ARE Ms. Mahima Jain, E&TC Ms. Trupti Najan, IT
6.	Innovation & Entrepreneurship Cell	**Dr. RB Gurav, Mech, IC** Mrs. Geeta Patil, IT Mr. Manoj Khaladkar, TPO Mr. Sukumar Chougale, E&TC Ms. Monika Gunjal, E&TC Ms. Piyusha Vyavahare, Comp Mr. Abhinandan Sankpal, Mech
7.	R&D Cell and Academic and Research co-ordination (SPPU)	**Dr. Seema Tiwari, Dean (R&D), IC** Dr. Jayadevan, Comp Dr. GM Walunjkar, IT Dr. Pragati Rana, E&TC Dr. Laxmikant Jathar, Mech Dr. Nidhi Yadav, E&TC Dr. Krishnakant Sahu, ARE Mr, Makarand Saste, IT

ARMY INSTITUTE OF TECHNOLOGY PUNE 411015

Sr. No.	Type of Committee	Committee Members
8.	Time Table Co-ordinator	**Mr. MB Lonare, Comp, Overall Coordinator** Dr. RB Gurav, Mech Dr. Snehal Marathe, E&TC Dr. Dhanshree Patil, E&TC Mr. Kuldeep Hule, Comp Dr. Amruta Shinde, ARE Ms. Anjali Hudedamani, IT
9.	P.R. Cell	**Mr. Manoj Khaladkar, TPO, IC** Mr. Y V Patel, Mech Mr. Yuvraj Gholap, IT Dr. Dhanashree Patil, E&TC Ms. Kuldeep Hule, Comp Dr. P C Kattimani, ARE
10.	Social Media Promotion Cell	**Dr. Swati Kulkarni, Dean SA, IC** Mr. A A Ramgude, Mech Ms. Reena Gedam, E&TC Ms. Jyoti Taralkar, IT Mr. Mohan Mane, Comp
11.	Press News Cell	**Dr. Vaishali Ganganwar, Comp, IC** Mr. Sandeep Samleti, IT Ms. Nithya Baskar, Mech Ms. Kavita Arakeri, IT
12.	Technical Board and Maths Club	**Dr. PB Karandikar, E&TC, IC** Dr. Ashwini Sapkal, IT Dr. Ganesh Mundhe, Comp Dr. Krishnkant Sahu, ARE Dr. Vikas Kumar, Mech Mr. Sagar Kaware, Library
13.	Cultural and Music Board	**Dr. Preeti Warrior, E&TC, IC** Dr. Pritee Purohit, Mech Mr. Anup Kadam, Comp Mr. Ashish Dudale, E&TC Ms. Pooja Adsul, IT Ms. Vasundhara Sutar, ARE Mr. Vinod Shetkar, Library Ms. Pushpa Kalane, IT
14.	Sports Club	**Mrs. Asha Sathe, Comp, IC** Mr. Vitthal Hivrale, E&TC Ms. Madhuri Arya, IT Dr. Vikas Kumar, Mech Mr. Vishal Pardeshi, Physical Director Ms. Swati Salunkhe, E&TC Mr K B Mandake, Wksp Inst
15.	NSS	**Dr S M Gaikwad, Mech, IC** Mr. Mangesh Hajare, Comp Ms. Monica Gunjal, E&TC Ms. Gauri Mane, IT
16.	Spiritual Club	**Mr. Vitthal Hivrale, E&TC, IC** Mr. Sachin Tanwade, Comp Ms. Aarti Ganshetty, Comp Ms. Pranita Tambe, E&TC

Description	Our nature club's recent expedition to Chaurai Devi and Dongarwadi was a day of incredible contrasts and unforgettable moments. The journey began with a gentle and refreshing trek to the serene Chaurai Devi temple, where we were rewarded with cool breezes and stunning panoramic views. The adventure then continued with a more challenging trail that tested our endurance but paid off immensely. As we reached the second summit, a magical drizzle began to fall, transforming the landscape into a misty, heavenly scene. This memorable day was a perfect blend of peaceful spirituality, thrilling adventure, and warm interactions with locals, capturing the true spirit of exploration that our club stands for.

Objectives of activity(min 2)	1. Trek to Shivneri fort, birthplace of Chatrapati Shivaji Maharaj. 1. Exploring Lenyadri Caves.
Description	The Nature Club of AIT organized a day trip on October 11, 2025, to Shivneri Fort and Lenyadri Caves, blending history, faith, and nature.Around 70 students and faculty set out at dawn, their laughter and music filling the cool morning air.After breakfast the group began the ascent to Shivneri, birthplace of Chhatrapati Shivaji Maharaj.The climb offered scenic views, shared jokes, and moments of quiet reverence at Shivaji's shrine atop the fort.Photos, snacks, and conversations turned the fort visit into both a history lesson and a joyful memory.By noon, the buses rolled toward Lenyadri Caves, where lunch under open skies refreshed everyone.Climbing the 300 steps to the Temples, students explored ancient Buddhist caves turned sacred shrines.Inside the cool rock halls, silence and devotion blended into a calm few minutes of reflection.As dusk settled, songs and smiles filled the return journey, fatigue mixing with quiet contentment.The day ended as more than a trip, it became a reminder of endurance, friendship, and the timeless bond between people and nature.

Description of activity	The Catalyst Idea Pitching Round, organized by the Nature Club, invited participants to present innovative and eco-friendly solutions to pressing environmental challenges. This event provided a platform for students to showcase their creativity and knowledge in sustainability, conservation, and technology. With a focus on real-world applications, participants pitched ideas aimed at protecting the environment and promoting sustainability, fostering teamwork and critical thinking in an engaging and collaborative setting.

Objectives of activity(min 2)	1. To promote adventure and teamwork among students. 2. To encourage appreciation of nature and outdoor exploration.
Description	Our nature club's recent trek to Matheran was a refreshing blend of adventure and natural beauty. The journey took us through lush green forests, winding trails, and breathtaking viewpoints that offered stunning views of the valleys and hills. Cool mountain winds and gentle mist made the experience even more magical, turning the trek into a memorable escape from city life. Filled with laughter, teamwork, and beautiful moments with fellow trekkers and locals, the expedition perfectly captured the spirit of exploration and togetherness that our club stands for.

Description of activity (50-150 words)	The Nature Club of AIT Pune organized a field visit starting with a plantation drive at Chaturshringi Hill in collaboration with the Green Hill Group. Students planted native saplings and participated in activities like stone shifting and tree painting, while also learning about the importance of native tree plantation for maintaining the hill's ecosystem. The visit was followed by a tour of the **Empress Botanical Garden**, where participants explored different species of plants and trees and gained valuable insights into biodiversity and conservation. The initiative provided a meaningful learning experience and encouraged environmental responsibility.

Objectives of activity (min 2)	1. To create awareness about astronomy and scientific thinking among students and provide an engaging educational experience by allowing participants to observe celestial bodies like Jupiter and the Moon through telescopes. 2. It also aims to provide hands-on learning, encourage critical thinking, and foster appreciation for astronomy, teamwork, and the vastness of the universe.
Description of activity (50-150 words)	The Interstellar event organised by Nature's Club was an astronomy-based stargazing event that included several pre-Interstellar activities like quizzes and photography to enhance participation,where the quiz tested students' knowledge of space and astronomy while the photography activity encouraged them to capture creative celestial and nature-themed shots. The event was guided by an expert guest, Mr. Akshay Anant Bhide, a professional astronomer with more than 10+ years of experience in this field, who gave a brief introduction to astronomical

Technical Board Report for AY 2025-26

VISION

To be a recognized center of technical excellence that fosters research, innovation, and leadership by engaging students in nationally competitive platforms, thereby contributing to the advancement of knowledge and technology.

MISSION

The Technical Board is committed to cultivating innovation, research aptitude, and technical proficiency by organizing events in research paper writing, competitive programming, robotics, and hardware design, while hosting impactful intra- and inter-college technical fests. Through mentorship and collaboration, it empowers students to excel in national hackathons and AI/ML competitions, equipping them with the professional and leadership skills required to contribute effectively to academia, industry, and society.

End Date	Round 2- 28.02.2026
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	400+
Number of Faculty Participants	0
Number of External Participants, If any	0
Expenditure Amount, If any	
Objectives of activity (min 2)	1.To foster and showcase innovative solutions (both software and hardware) that address real-world challenges, encouraging participants to "disrupt the norm" and "drive real change". 2.To provide a collaborative platform for AITians to apply their technical skills, develop impactful projects, and contribute to shaping the future, ultimately recognizing and rewarding leading innovators.
Description of activity	TechElevate is an innovation event for students, challenging both software and hardware creators to develop disruptive solutions for real-world problems. It's an opportunity to build impactful projects, shape the future, and win exciting prizes for leading the way in innovation.

Technical Board Report for AY 2025-26

VISION

To be a recognized center of technical excellence that fosters research, innovation, and leadership by engaging students in nationally competitive platforms, thereby contributing to the advancement of knowledge and technology.

MISSION

The Technical Board is committed to cultivating innovation, research aptitude, and technical proficiency by organizing events in research paper writing, competitive programming, robotics, and hardware design, while hosting impactful intra- and inter-college technical fests. Through mentorship and collaboration, it empowers students to excel in national hackathons and AI/ML competitions, equipping them with the professional and leadership skills required to contribute effectively to academia, industry, and society.

Report for AY 2025-26

Name of Club: SAE CLUB

VISION

To cultivate a culture of innovation, technical excellence, and teamwork by designing, building, and competing in high-performance vehicles, inspiring the next generation of engineers to push the boundaries of mobility and sustainable transportation.

MISSION

To provide students with hands-on experience in engineering design, manufacturing, and testing through participation in SAE competitions. We aim to foster creativity, teamwork, and problem-solving skills by developing innovative, efficient, and competitive vehicles, while promoting a culture of safety, sustainability, and continuous learning.

Academic Year	2025-26
Name of Coordinator	SAEINDIA
Program/Activity/Name	EFWDC
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	Other
Start Date of Activity/Event	Jan 2024
End Date of Activity/Event	Oct 2025
Mode of Session delivery (Offline/Online)	Offline
Number of Student Participants	8
Number of Faculty Participants	1
Number of External Participants, If any	
Expenditure Amount, If any	Approx. 285,000 Rs
Objectives of activity (min 2)	**Hands-on Engineering:** To design, simulate, and fabricate a functional electric vehicle that meets rigorous industry standards for safety, ergonomics, and performance. **Sustainable Innovation:** To optimize electric powertrain integration and energy efficiency through technical challenges, including design presentations and high-intensity endurance racing.
Description of activity	The **EFWDC (Electric Four-Wheeler Design Challenge)** is an SAEINDIA competition focused on designing, fabricating, and racing a high-performance electric vehicle. Our team successfully engineered a functional electric vehicle prototype, progressing from initial **CAD modeling** to the complete fabrication of the chassis and powertrain.

Academic Year	2025-26
Name of Coordinator	SAE AIT Collegiate Club
Program/Activity/Name	3D CAD Modelling Challenge
Select one of the Program Type (Workshop/FDP/Seminar/Conference/Other)	Other
Start Date of Activity/Event	27 March 2026
End Date of Activity/Event	1 April 2026
Mode of Session delivery (Offline/Online)	Online
Number of Student Participants	48 (all students)
Number of Faculty Participants	1
Number of External Participants, If any	42
Expenditure Amount, If any	N/A
Objectives of activity (min 2)	The primary objective of a **SAE 3D CAD Modelling Challenge** is to cultivate and test the technical ability of engineering students to transform conceptual, 2D engineering drawings into accurate, functional, and optimized 3D models using industry-standard CAD software (e.g., SolidWorks, Autodesk Fusion 360, Siemens NX, CATIA).
Description of activity	Hosted by **SAEINDIA** and organized by the **SAE AIT Collegiate Club**, this competition tested the precision and technical design skills of engineering students through a two-stage evaluation process. **Competition Structure** • **Stage 1 (Quiz):** Teams participated in a technical assessment focusing on CAD principles and engineering design. The **top 10 teams** were selected for stage 2. • **Stage 2 (Modelling Round):** Finalists were assigned unique, complex mechanical components. Teams had to

Program Outcomes (POs)

1. PO1: Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

2. PO2: Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

3. PO3: Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

4. PO4: Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

5. PO5: Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

6. PO6: The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

7. PO7: Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

8. PO8: Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

9. PO9: Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

10. PO10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. PO11: Project management and finance: Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
